VOLUME 165 CONTENTS

NUMBER 1, JANUARY 2004

1–9 The Structure of Photosynthetic Succulent Stems in Plants Other Than Cacti
James D. Mauseth

11–25 Procambial Initiation for the Vascular System in the Shoot of *Alstroemeria* (Alstroemeriaceae, Liliales)
Thompson Demetrio Pizzolato

27–36 Leaf Epicuticular Wax and Cuticle Ultrastructure of Four *Eucalyptus* Species and Their Hybrids
Toby G. Knight, Meredith A. B. Wallwork, and Margaret Sedgley

37–51 Tolerance to Salinity and Manganese in Three Common Roadside Species
Laura L. Beaton and Susan A. Dudley

53–63 Developmental Instability in *Rhus copallinum* L.: Multiple Stressors, Years, and Responses
D. Carl Freeman, Michelle L. Brown, Jeffrey J. Duda, John H. Graham, John M. Emlen, Anthony J. Krzysik, Harold Balbach, Dave A. Kovacic, and John C. Zak

65–72 Ecophysiology and Plant Size in a Tropical Epiphytic Fern, *Asplenium nidus*, in Taiwan
Craig E. Martin, Teng-Chiu Lin, Chia-Chun Hsu, Shin-Hwei Lin, Kuo-Chuan Lin, Yue-Joe Hsia, and Wen-Liang Chiou

73–83 An Examination of the Reproductive Biology of *Telopea speciosissima* (Proteaceae) with Emphasis on the Nature of Protandry and the Role of Self-Pollination in Fruit Set
C. A. Offord

85–96 Seed Mass and Morphology in Outcrossing and Selfing Species of *Clarkia* (Onagraceae): An SEM Study
Jennifer L. Knies, Véronique A. Delesalle, and A. R. Cavaliere

97–105 Phylogenetic Distribution and Evolution of Root Apical Meristem Organization in Dicotyledonous Angiosperms
Edwin P. Groot, James A. Doyle, Susan A. Nichol, and Thomas L. Rost

107–151 Morphological Phylogenetic Analysis of Living and Fossil Chloranthaceae
Helena Eklund, James A. Doyle, and Patrick S. Herendeen

153–172 Seed Surface Sculpturing and Its Systematic Significance in *Gilia* (Polemoniaceae) and Segregate Genera
Leigh A. Johnson, Katherine H. Huish, and J. Mark Porter

173–189 Floral Development and Phylogenetic Position of *Schismatoglottis* (Araceae)
Denis Barabé, Christian Lacroix, Anne Bruneau, Annie Archambault, and Marc Gibernau

191–207 The Temporal Course of Quaternary Diversification in the European High Mountain Endemic *Primula* sect. *Auricula* (Primulaceae)
Li-Bing Zhang, Hans Peter Comes, and Joachim W. Kadereit

209–217 Molecular Phylogenetics of the Caribbean Genera *Rhodogeron* and *Sachsia* (Asteraceae)
Hong Liu, Jennifer Trusty, Ramona Oviedo, Arne Anderberg, and Javier Francisco-Ortega

219–230 Multiple Origins of the Japanese Nocturnal *Hemerocallis citrina* var. *vespertina* (Asparagales: Hemerocallidaceae): Evidence from Noncoding Chloroplast DNA Sequences and Morphology
Junko Noguchi and Hong De-yuan

NUMBER 2, MARCH 2004

231–242 Vein Pattern Development in Adult Leaves of *Arabidopsis thaliana*
Julie Kang and Nancy Dengler

243–256 Seven Enzymes of Carbon Metabolism, Including Three Calvin Cycle Isozymes, Are Present in the Secondary Cell Wall Thickenings of the Developing Xylem Tracheary Elements in Pea Leaves
Louise E. Anderson and Andrew A. Carol

257–261 Nonchimeric Variegated Mutation in *Cupressus sempervirens* L.
Simcha Lev-Yadun, Moshe A. Flaishman, and Nir Atzmon

263–271 Effect of *Pseudomonas syringae* pv. *tagetis* Infection on Sunflower Leaf Photosynthetic and Ascorbic Acid Relations
J. Michael Robinson, John Lydon, Charles A. Murphy, Randy Rowland, and Ramona D. Smith

273–280 TCA Microsatellite Repeats in the 5′UTR of the Sat5 Gene of Wild and Cultivated Accessions of *Pisum* and of Four Closely Related Genera
Joel P. Stafstrom and Paul Ingram

281–288 Can a Genetic Correlation with Seed Mass Constrain Adaptive Evolution of Seedling Desiccation Tolerance in Wild Barley?
Koen J. F. Verhoeven, Arjen Biere, Eviatar Nevo, and Jos M. M. van Damme

289–301 Floral Biology of Gender Monomorphism and Dimorphism in *Wurmbea dioica* (Colchicaceae) in Western Australia
Andrea Case and Spencer C. H. Barrett

303–310 Relative Competitive Ability of *Helianthus paradoxus* and Its Progenitors, *H. annuus* and *H. petiolaris* (Asteraceae), in Varying Soil Salinities
J. K. Bush and O. W. Van Auken

311–324 Phylogenetic Relationships in Fagales Based on DNA Sequences from Three Genomes
Rui-Qi Li, Zhi-Duan Chen, An-Ming Lu, Douglas E. Soltis, Pamela S. Soltis, and Paul S. Manos

325–335 Phylogenetics and Biogeography of *Alnus* (Betulaceae) Inferred from Sequences of Nuclear Ribosomal DNA ITS Region
Zhiduan Chen and Jianhua Li

337–345 *Bracteophyton variatum* gen. et sp. nov., an Early Devonian Plant from the Xujiachong Formation of Yunnan, China
De-Ming Wang and Shou-Gang Hao

NUMBER 3, MAY 2004

347–357 Effects of Environment on Vessel Characters in Cactus Wood
Joshua F. Stevenson and James D. Mauseth

359–368 Theoretical Considerations of Vessel Diameter and Conductive Safety in Populations of Vessels
James D. Mauseth and Joshua F. Stevenson

369–375 Perforation Plate Pit Membrane Remnants and Other Vessel Details of Clethraceae: Primitive Features in Wood of Ericales
Sherwin Carlquist and Edward K. Schneider

377–386 Influence of Geographical Distribution and Floral Traits on Species Richness of Bees (Hymenoptera: Apoidea) Visiting *Echium* Species (Boraginaceae) of the Canary Islands
Yoko L. Dupont and Charlotte Skov

387–394 Transient Self-Incompatibility Confers Delayed Selfing in *Leptosiphon jepsonii* (Polemoniaceae)
Carol Goodwillie, Kerry L. Partis, and Jennifer W. West

395–401 Mode of Pollination, Pollen Germination, and Seed Set in Smooth Cordgrass (*Spartina alterniflora*, Poaceae)
Xiaobing Fang, Prasanta K. Subudhi, Bradley C. Venuto, and Stephen A. Harrison

403–416 Phylogenetic Relationships of the Perianthless Piperales: Reconstructing the Evolution of Floral Development
M. Alejandra Jaramillo, Paul S. Manos, and Elizabeth A. Zimmer

417–426 Floral Ontogeny in *Calliandra angustifolia* (Leguminosae: Mimosoideae: Ingeae) and Its Systematic Implications
Gerhard Prenner

427–436 A Comparison of Direct and Indirect Measures of Gene Flow in the Bat-Pollinated Tree *Hymenaea courbaril* in the Dry Forest Life Zone of Southwestern Puerto Rico
Brian K. Dunphy, James L. Hamrick, and Joseph Schwagerl

437–444 Genotypic and Genetic Diversity of the Common Weed *Cirsium arvense* (Asteraceae)
Magali Solé, Walter Durka, Sabine Eber, and Roland Brandl

NUMBER 4, JULY 2004

445–473 Comparative Floral Development and Androecium Structure in Malvoideae (Malvaceae s.l.)
Maria von Balthazar, William S. Alverson, Jürg Schönenberger, and David A. Baum

475–498 Stamen Development in *Salvia* L.: Homology Reinvestigated
Regine Classen-Bockhoff, Michael Crone, and Elena Baikova

499–510 The Asymmetric Androecium in Papilionoideae (Leguminosae): Definition, Occurrence, and Possible Systematic Value
Gerhard Prenner

511–519 Floral Organogenesis in *Plowmanianthus* (Commelinaceae)
Christopher R. Hardy, Jerrold I. Davis, and Dennis W. Stevenson

521–536 Leaf Architecture and Epidermal Characters of the Argentinean Species of Proteaceae
C. C. Gonzalez, M. A. Gandolfo, and R. N. Cúneo

537–544 Inheritance of Novel 57H Mutations in Rice and Their Effect on Compartmentation of Endosperm Storage Proteins
H. D. Tian, H. Satoh, and Y. Takemoto

545–551 Reserve Utilization in Seeds of *Arabidopsis thaliana* Germinating in Microgravity
L. G. Briarty and E. P. Maher

553–563 Xylanase-Mediated Hydrolysis of Wheat Bran: Evidence for Subcellular Heterogeneity of Cell Walls
Johnny Beaugrand, Danièle Reis, Fabienne Guillon, Philippe Debeire, and Brigitte Chabbert

565–570 Roots of *Nicotiana sylvestris* Lack Phototropism
Sasha Y. Lucas and John Z. Kiss

571–585 Differential Distribution of Callose and a (1→4)β-D-Galactan Epitope in the Laticiferous Plant *Euphorbia heterophylla* L.
Marcelo D. Serpe, Alan J. Muir, Christine Andème-Onzighi, and Azeddine Driouich

587–593 Flower Specialization in a Passively Pollinated Monoecious Fig: A Question of Style and Stigma?
Emmanuelle Jousselin, Finn Kjellberg, and Edward Allen Herre

595–603 Style Persistence, Pollen Limitation, and Seed Set in the Common Prairie Plant *Echinacea angustifolia* (Asteraceae)
Stuart Wagenius

605–614 The Reproductive Biology of *Agalinis auriculata* (Michx.) Raf. (Orobanchaceae), a Threatened North American Prairie Inhabitant
Christopher R. Mulvaney, Brenda Molano-Flores, and Douglas W. Whitman

615–622 Comparative Analysis of Genetic Divergence among Sexual Ancestors of Apomictic Complexes Using Isozyme Data
Elvira Hörandl

623–630 Genetic Relatedness and Competition in *Triplasis purpurea* (Poaceae): Resource Partitioning or Kin Selection?
Gregory P. Cheplick and Kristin H. Kane

631–650 The Spores of the Triassic Lycopsid *Pleuromeia sternbergii* (Münster) Corda: Morphology, Ultrastructure, Phylogenetic Implications, and Chronostratigraphic Inferences
Léa Grauvogel-Stamm and Bernard Lugardon

651–670 Megaspores and Palynomorphs from the Lower Potomac Group of Maryland, U.S.A.
Richard Lupia

671–690 Phytogeography and Fossil History of *Ailanthus* (Simaroubaceae)
Sarah L. Corbett and Steven R. Manchester

691–694 A Fossil Byblidaceae Seed from Eocene South Australia
John G. Conran and David C. Christophel

NUMBER 4, JULY 2004 SUPPLEMENT

Tropical Intercontinental Disjunctions

S1–S6 Tropical Intercontinental Disjunctions: Gondwana Breakup, Immigration from the Boreotropics, and Transoceanic Dispersal
Thomas J. Givnish and Susanne S. Renner

S7–S21 Dating Lineages: Molecular and Paleontological Approaches to the Temporal Framework of Clades
Susana A. Magallón

S23–S33 Plant Dispersal across the Tropical Atlantic by Wind and Sea Currents
Susanne Renner

S35–S54 Ancient Vicariance or Recent Long-Distance Dispersal? Inferences about Phylogeny and South American–African Disjunctions in Rapateaceae and Bromeliaceae Based on *ndh*F Sequence Data
Thomas J. Givnish, Kendra C. Millam, Timothy M. Evans, Jocelyn C. Hall, J. Chris Pires, Paul E. Berry, and Kenneth J. Sytsma

S55–S67 Phylogeny, Molecular and Fossil Dating, and Biogeographic History of Annonaceae and Myristicaceae (Magnoliales)
James A. Doyle, Hervé Sauquet, Tanya Scharaschkin, and Annick Le Thomas

S69–S83 Did Crypteroniaceae Really Disperse Out of India? Molecular Dating Evidence from *rbc*L, *ndh*F, and *rpl*16 Intron Sequences
Frank Rutschmann, Torsten Eriksson, Jürg Schönenberger, and Elena Conti

S85–S105 Clades, Clocks, and Continents: Historical and Biogeographical Analysis of Myrtaceae, Vochysiaceae, and Relatives in the Southern Hemisphere
Kenneth J. Sytsma, Amy Litt, Michelle L. Zjhra, J. Chris Pires, Molly Nepokroeff, Elena Conti, Jay Walker, and Peter G. Wilson

S107–S121 High-Latitude Tertiary Migrations of an Exclusively Tropical Clade: Evidence from Malpighiaceae
Charles C. Davis, Peter W. Fritsch, Charles D. Bell, and Sarah Mathews

S123–S135 Testing Hypotheses on Disjunctions Present in the Primarily Woody Boraginales: Ehretiaceae, Cordiaceae, and Heliotropiaceae, Inferred from ITS1 Sequence Data
Marc Gottschling, Nadja Diane, Hartmut H. Hilger, and Maximilian Weigend

S137–S138 Tropical Plant Disjunctions: A Personal Reflection
Robert Thorne

NUMBER 5, SEPTEMBER 2004

695–706 Differences in Developmental Programming and Node Number at Flowering in the 5-Azacytidine-Induced Early Flowering Flax Lines and Their Controls
M. A. Fieldes and C. G. Harvey

707–722 Roles of Auxin and *Uni* in Leaf Morphogenesis of the *afila* Genotype of Pea (*Pisum sativum*)
Darleen A. DeMason and Rekha Chawla

723–738 Floral Morphology and Development in *Aragoa* (Plantaginaceae) and Related Members of the Order Lamiales
M. A. Bello, P. J. Rudall, F. González, and J. L. Fernández-Alonso

739–744 Floral Initiation and Development of the Sex-Changing Plant *Arisaema sikokianum* (Araceae)
Seiichi Fukai

745–751 The Influence of Spermine on the *In Situ* Expression of a Protein Kinase Associated with Senescence in *Marchantia polymorpha* Thalli
Matthew A. Smith and Nicholas C. Maravolo

753–763 Heterodichogamy of a Novel Type in *Hernandia* (Hernandiaceae) and Its Structural Basis
Peter K. Endress and David H. Lorence

765–771 Inbreeding Depression and Biased Paternity after Mixed-Pollination in *Vaccinium myrtillus* L. (Ericaceae)
Olivier Raspé, Patricia Guillaume, and Anne-Laure Jacquemart

773–778 Reproductive System in the Iberian Endangered Endemic *Antirrhinum valentinum* F.Q. (Antirrhineae, Scrophulariaceae): Consequences for Species Conservation
Isabel Mateu-Andrés and José Gabriel Segarra-Moragues

779–785 Reproductive Success and Sex Variation in Nectarless and Rewarding Orchids
Jana Jersáková and Pavel Kindlmann

787–793 Use of the Black Yeast *Phaeococcomyces* Fungal Melanin Model System for Preparation of 1,3,6,8-Tetrahydroxynaphthalene and the Other Components of the DHN Fungal Melanin Pathway
Michael J. Butler, Richard B. Gardiner, and Alan W. Day

795–803 Landscape-Level Effects on Developmental Instability: Fluctuating Asymmetry across the Range of Honey Locust, *Gleditsia triacanthos* (Fabaceae)
Helen T. Murphy and Jon Lovett-Doust

805–816 Photosynthesis and Fluctuating Asymmetry as Indicators of Plant Response to Soil Disturbance in the Fall-Line Sandhills of Georgia: A Case Study Using *Rhus copallinum* and *Ipomoea pandurata*
D. Carl Freeman, Michelle L. Brown, Jeffrey J. Duda, John H. Graham, John M. Emlen, Anthony J. Krzysik, Harold E. Balbach, David A. Kovacic, and John C. Zak

817–824 Population Differentiation and Plastic Responses to Drought Stress in the Generalist Annual *Polygonum persicaria*
M. Shane Heschel, Sonia E. Sultan, Susan Glover, and Dan Sloan

825–832 Plasticity of Traits and Correlations in Two Populations of *Convolvulus arvensis* (Convolvulaceae) Differing in Environmental Heterogeneity
Ernesto Gianoli

833–843 Comparison of Genetic Diversities in Native and Alien Populations of Hoary Mustard (*Hirschfeldia incana* [L.] Lagreze-Fossat)
Patricia L. M. Lee, R. M. Patel, R. S. Conlan, S. J. Wainwright, and C. R. Hipkin

845–860 Phylogeny and Biogeography of *Dionysia* (Primulaceae)
Ida Trift, Magnus Lidén, and Arne A. Anderberg

861–873 Phylogenetic Relationships among *Polyscias* (Araliaceae) and Close Relatives from the Western Indian Ocean Basin
Gregory M. Plunkett, Porter P. Lowry II, and Ninh V. Vu

875–881 SEM Analysis of *Spongiophyton* Interpreted as a Fossil Lichen
Wilson A. Taylor, Chris Free, Carolyn Boyce, Rick Helgemo, and Jaime Ochoada

883–895 *Mauldinia hirsuta* sp. nov., a New Member of the Extinct Genus *Mauldinia* (Lauraceae) from the Late Cretaceous (Cenomanian-Turonian) of Kazakhstan
Suembikya Frumin, Helena Eklund, and Else Marie Friis

897–916 *Cardstonia tolmanii* gen. et sp. nov. (Limnocharitaceae) from the Upper Cretaceous of Alberta, Canada
Michael G. Riley and Ruth A. Stockey

NUMBER 6, NOVEMBER 2004

917–924 *YABBY2*-Homologue Expression in Lateral Organs of *Amborella trichopoda* (Amborellaceae)
Toshihiro Yamada, Motomi Ito, and Masahiro Kato

925–947 Floral Developmental Morphology of *Amborella trichopoda* (Amborellaceae)
Matyas Buzgo, Pamela S. Soltis, and Douglas E. Soltis

949–955 GFP-Targeted Mitochondria Show Heterogeneity of Size, Morphology, and Dynamics in Transgenic *Nicotiana tabacum* L. Plants *In Vivo*
Yih-Shan Lo, Lin-June Hsiao, Wann-Neng Jane, Yuh-Cheng Charng, Hwa Dai, and Kwen-Sheng Chiang

957–964 The Peridial Development and Dehiscence Mechanism of *Cryptendoxyla hypophloia*, a Cleistothecial Ascomycete Isolated from the Bodies of Arthropods
M. D. Greif, A. Tsuneda, and R. S. Currah

965–972 Antioxidant Levels Decrease in Primary Leaves of Barley during Growth at Ambient and Elevated Carbon Dioxide Levels
J. Michael Robinson and Richard C. Sicher

973–981 Patterns of Fitness and Fluctuating Asymmetry across a Broad Hybrid Zone
Sara M. Handy, Kim McBreen, and Mitchell B. Cruzan

983–993 Correlated Evolution of Dichogamy and Self-Incompatibility: A Phylogenetic Perspective
Matthew B. Routley, Robert I. Bertin, and Brian C. Husband

995–1006 High Level of α-Dioxygenase in Short Styles of Distylous *Turnera* Species
Davood Khosravi, Eric C. C. Yang, K. W. Michael Siu, and Joel S. Shore

1007–1015 Musty-Earthy Scent in Cactus Flowers: Characteristics of Floral Scent Production in Dehydrogeosmin-Producing Cacti
Boris O. Schlumpberger, Andreas Jux, Maritta Kunert, Wilhelm Boland, and Dieter Wittmann

1017–1026 Pollination in the New Guinea Endemic *Antiaropsis decipiens* (Moraceae) Is Mediated by a New Species of Thrips, *Thrips antiaropsidis* sp. nov. (Thysanoptera: Thripidae)
Nyree J. C. Zerega, Laurence A. Mound, and George D. Weiblen

1027–1037 Natural Hybridization between Prairie Milkweeds, *Asclepias sullivantii* and *Asclepias syriaca*: Morphological, Isozyme, and Hand-Pollination Evidence
Robert A. Klips and Theresa M. Culley

1039–1045 Corolla Morphology Facilitates Both Autogamy and Bumblebee Pollination in *Mimulus guttatus*
H. S. Arathi and John K. Kelly

1047–1053 Highly Variable Pollination Patterns in *Magnolia obovata* Revealed by Microsatellite Paternity Analysis
Yuji Isagi, Tatsuo Kanazashi, Wajirou Suzuki, Hiroshi Tanaka, and Tetsuto Abe

1055–1061 Inbreeding Depression in *Nigella degenii* (Ranunculaceae): Fitness Components Compared with Morphological and Phenological Characters
Maarten Ellmer and Stefan Andersson

1063–1075 Molecular Studies of Representative Species in the Fern Genus *Elaphoglossum* (Dryopteridaceae) Based on cpDNA Sequences *rbc*L, *trn*L-F, and *rps*4-*trn*S
Judith E. Skog, John T. Mickel, Robbin C. Moran, Miguel Volovsek, and Elizabeth A. Zimmer

1077–1087 Phylogenetic Relationships of the Enigmatic Malesian Fern *Thylacopteris* (Polypodiaceae, Polypodiidae)
Harald Schneider, Thomas Janssen, Peter Hovenkamp, Alan R. Smith, Raymond Cranfill, Christopher H. Haufler, and Tom A. Ranker

1089–1105 Taxonomy, Phylogeny, and Inflorescence Development of the Genus *Ixophorus* (Panicoideae: Poaceae)
Elizabeth A. Kellogg, Kenneth M. Hiser, and Andrew N. Doust

1107–1119 A New Species of *Discinites* (Noeggerathiales) Associated with a New Species of *Yuania* from the Lower Permian of Inner Mongolia, China
Jun Wang, Hermann W. Pfefferkorn, Zhuo Feng, and Guanglong Shen

1121–1133 *Endressinia brasiliana*, a Magnolialean Angiosperm from the Lower Cretaceous Crato Formation (Brazil)
Barbara A. R. Mohr and Mary E. C. Bernardes-de-Oliveira

1135–1148 *Palaeocarpinus dakotensis* sp.n. (Betulaceae: Coryloideae) and Associated Staminate Catkins, Pollen, and Leaves from the Paleocene of North Dakota
Steven R. Manchester, Kathleen B. Pigg, and Peter R. Crane

1151–1156 Volume 165 Contents

1157–1158 Volume 165 Author Index

1159–1163 Volume 165 Subject Index
